

QUALITY POLICY

The prosperity and security of the company, together with everyone associated with it, ultimately depends on our ability to provide products and service that are consistently in accordance with our own standards and our customer's needs.

Enicor Limited engages exclusively with UK and European foundries, assisting them with problematic products such as by - products and negative value products.

Our team has developed decades of experience within this industry, working to create the best solutions for our customers.

We also offer our extensive knowledge and experience to mining and metals companies, apply innovation, transformational strategies to improve operations, therefore improving growth and lowering risk.

The unique challenges faced within the industry are what we do best!
We at Enicor Ltd are at the forefront of Commodity Brokering and Marketing, on a Global Scale.

Our business model allows us to trade in products, activities, and different locations. We can therefore adapt quickly to change required within the Global Market.

Our commodity range is anything from metals & minerals to energy products, we are not restricted to what we can offer in today's Global Market.

Our brokering arm of the business helps us to deliver export products whether that be in containers, or vessel shipments around the World.

It is our policy to ensure:

- **Our staff and contractors are aware of our customers' requirements.**
- **Compliance with relevant customer, statutory and regulatory requirements.**
- **Our staff and contractors are competent to carry out the tasks assigned to them.**
- **Continual improvement of our performance and the Business Management System.**
- **We work Ethically and Responsibly as a core principle.**
- **We uphold the highest levels of Health and Safety.**

To achieve this consistently and efficiently we operate a Business Management System which meets the requirements of ISO 9001.

We set and achieve Objectives and Targets to achieve these aims.

It is our sincere belief that maintaining the highest standard of quality is the responsibility of every member of staff within the Company.

Mr James Bowers
